Skills

Language: Javascript, Python, SQL, HTML5, CSS3

Frameworks/Tools: React, Redux, Express, Flask, Sequelize, SQLAlchemy, PostgreSQL, Websockets, Liveblocks, react-h5-audio-player, Git, Node.js

Key Skills: Pair Programming, Test-Driven Development (TDD), Object-Oriented Programming (OOP)

Projects

Duckie Beats

[live site](#) | [github](#)

Javascript, Express, React, Redux, React-h5-audio-player, Sequelize

Full-stack SoundCloud clone

- Integrated a live audio player with react-h5-audio-player to be able to listen to any song that is uploaded
- Developed full CRUD on 4-5 different features on the backend that optimized React to use effectively
-

Utopia

[live site](#) | [github](#)

Python, Flask, React, Redux, Websockets, Liveblocks, SQLAlchemy

Full-stack OkCupid clone

- Led three other developers in the utilization and implementation of Websockets and Liveblocks
- Optimized RESTful routes for messages to make a dynamic private message feature
- Bullet Three

Contempo

[live site](#) | [github](#)

Python, Flask, React, Redux, SQLAlchemy

Full-stack Hipcamp clone

- Developed a reliable state management in Redux for React to predictably use and integrate in components
- Engineered a dynamic backend POST for campgrounds that was able to unilaterally add from multiple different tables
- Bullet Three

Experience

Combat Medic | August 2017 - Present

U.S. Army

- Instituted a formalized training schedule, directly impacting all new soldiers pipelined into the unit
- Managed and supervised a squad of 6-8 soldiers emanating in a direct development of experienced and seasoned soldiers
- Bullet Three

Education

App Academy | Fall 2022 | Online

Immersive software development course with focus on full stack web development

University | Spring 2015 | San Francisco, CA

School of Awesome, BA of Awesome
